Parent Connection is a parent education and support program designed to Encourage, Strengthen and Support Families. Each program offered by Parent Connection is focused on providing family education and promoting positive parenting techniques to include:

- Support parents by sharing and promoting effective skills of positive parenting
- Strengthen healthy parent/child relationships
- Develop and maximize parent’s potential to resolve difficult situations
- Strengthen the relationship between parents to promote healthy family dynamics.

Parents as Teachers’ Home Visitation
This free early-learning program is designed for first-time parents and their babies residing in Outagamie, Winnebago and parts of Calumet County. Family Support Specialists trained in early childhood and brain development conduct home visits from the child’s birth to the age of three.

Family Wellness Workshops
Find out the latest information about child growth and development, stress management, positive discipline, communication, the teen years, and many other issues related to parenting.

Teen Parent Program
The Teen Parent program is designed to meet the unique needs of teen parents by providing them with unique opportunities such as Parents as Teachers Home Visiting program, Teen Parent Mentoring, and monthly group meetings.

Community Presentations
Parent Connection offers speakers to businesses, schools, community agencies, and more on a variety of parenting and child abuse prevention topics. Program fees vary depending on length and location.

Family Fun Events
Parent Connection offers several low-cost family fun events for parents with young children including the annual Dad’s & Kids’ Luau and the Autumn Adventure.

Fatherhood Programs
The Fatherhood Programs of Parent Connection are specifically designed with needs of men in mind, as they become fathers. Classes for expectant dads on baby care basics are offered as well as on-going groups for dads and their children, birth to five.

Supervised Visitation & Exchange
Provides visitation and exchange services between divorced or separated parents. Staff help to ensure a safe and secure setting for the child, free from parental violence or conflict.

CHILD DEVELOPMENT/SPECIAL NEEDS

Appleton Area School District Birth-Five Outreach Program
313 S. State St., Appleton (920) 832-6470
http://www.aasd.k12.wi.us/parents/birth-five_outreach
Provides outreach to parents with children under age 5 who reside in the Appleton Area School District. Offerings include parent/child playgroups, developmental screenings for children ages 3-5, parent/child events, parent education workshops, referrals to home visitation programs and connections to other school and community resources.

Appleton Area School District 3-5 Year Old Developmental Screenings
313 S. State St., Appleton (920) 832-6109
Located in the Community Early Learning Center.
www.aasd.k12.wi.us/parents/3-5_year_old_developmental_screenings
The Appleton Area School District recommends that ALL children who live in the district participate in a Developmental Screening. Children should be screened on or after their 3rd birthday. We prefer to see children at age 3 and before entering 4K. However, if your child is currently attending 4K and has not been screened, please call to schedule a screening. Parents or guardians do not need to have specific concerns to schedule a screening. Screenings cover all areas including:

- How your child talks, listens, and moves.
- How your child uses his/her hands
- How your child learns

Banta Early Learning Center
328 6th Street, Menasha (920) 967-1417
Offers a variety of preschool programs for children 3-5.

Birth to Three, Calumet County
206 Court Street, Chilton (920) 849-1400 or (920) 989-2700 x400
Provides early intervention for children who have developmental delays from birth to age three and their families in Calumet County.

Birth to Three, Outagamie County
Early Intervention Program through Valley Packaging Industries, Inc.
Located in Community Early Learning Center, 313 S. State St. Appleton
Phone-(920) 997-1484
Fax-(920) 997-1488
www.birthto3foxvalley.com
Provides early intervention for children who have developmental delays from birth to age three and their families in Outagamie County.

Birth to Three, Winnebago County
220 Washington Avenue, Oshkosh (920) 236-4650
Early Intervention Services supports families with children ages 0-3 with developmental delays in Winnebago County. EIS uses a Primary Coach Approach to Teaming, working in partnership with families within their daily routines and everyday learning opportunities.
Calumet County Aging & Disability Resource Center
206 Court Street, Chilton (920) 849-1451

Cerebral Palsy & Arc
36 Broad Street, Suite 120, Oshkosh (920) 424-4071 or 1-800-261-1895

Special Memories Zoo
W7013 Spring Road, Greenville (920) 757-9695
It's time to change how we view a child's growth.

As they grow, children are always learning new things. Below are just some of the things you should look for as your child grows. Use this as a guide, and if you have any concerns, talk with your child's doctor and call 1-800-CDC-INFO to get connected with your community's early childhood intervention system.

At 6 months, many children
- respond to own name
- respond to other people's emotions and often seem happy
- copy sounds
- like to play with others, especially parents

At 1 year (12 months), many children
- use simple gestures, like shaking head "no" or waving "bye-bye"
- say "mama" and "dada" and exclamations like "uh-oh!"
- copy gestures
- respond to simple spoken requests

At 1 ½ years (18 months), many children
- play simple pretend, such as feeding a doll
- point to show others something interesting
- show a full range of emotions, such as happy, sad, angry
- say several single words

At 2 years (24 months), many children
- say sentences with 2 to 4 words
- follow simple instructions
- get excited when with other children
- point to things or pictures when they are named

At 3 years (36 months), many children
- show affection for friends without prompting
- carry on a conversation using 2 to 3 sentences
- copy adults and friends
- play make-believe with dolls, animals, and people

At 4 years (48 months), many children
- tell stories
- would rather play with other children than by themselves
- play cooperatively with others

Questions to ask your child's doctor:
- Is my child's development on track for his or her age?
- How can I track my child's development?
- What should I do if I'm worried about my child's progress?
- Where can I get more information?

1-800-CDC-INFO

Learn the Signs. Act Early.
Read aloud every day!
It's **FUN**. It's **SPECIAL TIME** with your child. It helps children learn **LOTS** of **NEW WORDS**.

---

**IT'S NEVER TOO EARLY TO START!**
Babies love to be held and to hear your voice. Cuddle up together and look at board books.

**MAKE THE STORY COME ALIVE**
Read with fun and excitement in your voice. Try loud, or soft, or silly voices.

---

**A FEW MINUTES IS OKAY**
Young children may sit still for only a few minutes. They will listen longer as they grow.

**TALK ABOUT THE PICTURES**
Make up stories to go with the pictures. Let your child join in!

---

**LET YOUR CHILD TURN THE PAGES**
Babies and toddlers need help to turn board book pages. A three-year-old likes to turn paper pages without help.

**READ ANYWHERE, ANYTIME**
Read at playtime, bedtime and naptime. Read any place you have to wait. Read at the playground or under a tree, in the car or on the bus.

---

**READ FAVORITE STORIES OVER AND OVER**
Children love to hear the same stories again and again. This is how they learn.

**GO TO YOUR LOCAL LIBRARY TO GET MORE BOOKS**
Your local library has lots of free books. Let your child choose which ones to bring home.

---

**ASK YOUR CHILD QUESTIONS ABOUT THE STORY**
Where is the moon? What do you think will happen next? Be sure to give your child time to answer!

**When children are read to by people they love, children learn to love books!**

---

# Milestones of Early Literacy Development

## Newborn to 6 Months

**Talk, Sing, Read, Play** Right from birth, babies are listening, looking, and learning. So find, and enjoy, those everyday moments when you can talk, sing, read, and play together with your baby.

FOOD ALLERGY
Babysitting and Drop-Off Form

Created to help teach friends, family, babysitters and others responsible for the care of children with food allergies
By Michael Pistiner, M.D., M.M.Sc., edited by John Lee, M.D., of AllergyHome in collaboration with Kids With Food Allergies

TAKE ALL FOOD ALLERGIES SERIOUSLY • TRACE AMOUNTS OF FOOD CAN CAUSE A REACTION

PREVENTION and EMERGENCY PREPAREDNESS are a constant must

---

**PREVENTION**

Read Labels

Learn How to Read a Label for Food Allergens.* Read Labels Every Time.
- Food allergens can be hidden in flavorings, colorings or other additives
- Allergens can be hidden ingredients, e.g. milk in canned tuna
- Ingredients may change without notice

*You can learn about U.S. labeling for allergens at www.fda.gov.

Cross-Contact

Cross-Contact is the Presence of Unintended Allergens.
- Do not share utensils, dishware, cups, water bottles, or food. Wash dishes, utensils, cups, etc. thoroughly, with soap and water.
- Wash hands well with soap and water or hand wipes, before eating or touching the face. Hand sanitizers don’t work.
- Clean tables and eating surfaces thoroughly with soap and water, commercial cleaners or commercial wipes. Allergens withstand heating and drying.
- Be aware of other sources of exposure including: saliva from people or pets, sponges, dishrags, sanitizing buckets, aprons, food that touches the allergen, etc.

---

**EMERGENCY PREPAREDNESS**

- Epinephrine (eg. Adrenaclick®, Auvi-Q™, EpiPen® or generic epinephrine auto injector) is the treatment for a severe allergic reaction.
- Always have epinephrine auto injectors close by.
  - Know how to give epinephrine.
  - Know when to give epinephrine.
  - Know where the auto injectors are located.
- Have a Food Allergy Action Plan available and review it with the parents.
- After giving epinephrine, always call 911 or local ambulance service and tell them that a child is having an allergic reaction and may need more epinephrine.

---

**IMPORTANT CHILD CARE INFORMATION**

For Emergency dial 911 or local Emergency #:

Child’s Name: __________________________ Age: _____ Weight: ______

Child’s Address or Current Location: ________________________________

Food Allergies: __________________________________________________

Drug Allergies: __________________________________________________

Parent’s Name: __________________________ Phone #: ______________

Doctor’s Name: __________________________ Phone #: ______________

---

**QUICK TIPS**

Know where your epinephrine and allergy action plan is located
- Read all ingredient labels and avoid cross-contact
- Ask parents about safe foods to give
- If unsure, do not give the food in question
