Use Caution when Applying Manure Near Critical Sites Which Include:

- Wells
- Channels
- Ditches
- Waterways
- Streams
- Rivers
- Lakes
- Ponds
- Tile Inlets
- Broken Tile Lines
- Sinkholes
- Bedrock Near

If manure is running off the field while surface applying, STOP! Work manure into the soil immediately.

Wisconsin state law requires immediate reporting of manure spills and run-off to the

**DNR Spill Reporting Hotline at 1-800-943-0003**

if it threatens to cause adverse impacts to human health, safety or the environment.

Who to contact if a Manure Spill or Run-off Occurs

**WISCONSIN DNR SPILL REPORTING HOTLINE:**
800-943-0003
(This number is staffed 24 hours a day.)

**DNR NORTHEAST REGION: GREEN BAY**
920-662-5460

**CONSERVATION WARDENS**
920-450-2367—Ryan Propson
920-209-6607—Tom Sturdivant

**OUTAGAMIE COUNTY LAND CONSERVATION DEPARTMENT**
920-832-5073
(7:00 AM to 4:00 PM, Monday—Friday)

**HOME PHONE NUMBERS FOR COUNTY STAFF**

715-754-2544—Quint Krueger

**OUTAGAMIE COUNTY EMERGENCY MANAGEMENT**
920-832-5148

---

Revised—October 2015
An accidental spill is not illegal. Failure to report it is.

Leaks and spills from manure storage facilities
- Contain the spill immediately through the use of basins and berms
- Divert manure from critical sites including: wells, channels, ditches, waterways, streams, rivers, lakes, ponds, tile inlets, broken tile lines, sinkholes, and bedrock near the surface
- Repair storage facility immediately
- If field conditions warrant, remove only enough manure to get you through to the next scheduled application cycle (e.g. spring or fall)
- Contact the Outagamie County Land Conservation Department at 920-832-5073 to make critical repairs

Manure Run-off from fields
- Stop manure application immediately
- Contain run-off immediately through the use of berms and basins
- Divert manure run-off from critical sites including: wells, channels, ditches, waterways, streams, rivers, lakes, ponds, tile inlets, broken tile lines, sinkholes, and bedrock near the surface
- Incorporate applied manure
- Plug tile lines if manure has entered them
- Evaluate and eliminate the situation that caused the run-off

When you report a spill, you will need to provide the following information
- Your name and address and the location of the spill, along with the property owner’s name
- The physical state, quantity, and chemical characteristics of the discharge substances
- Where the substance was spilled and where the spill was ultimately deposited
- Actions that you took to stop the release and/or minimize the impact to the environment
- The actual or potential impacts to human health and the environment
