Total Ballot Recount Change from Original Canvassed Results: 76

Recount explanations for above total ballot count changes:
 -Wrong hand tallying for hand tallied ballots on Election Day by election inspectors;
 -Ballots being re-fed in optical scan equipment on Election Day previously fed through the equipment. This error is due to jams and election inspector either unable to identify poll list no. with machine counter during peak operations or errors in not verifying machines counters advancing with each voter;
 -Ballots in the City of Appleton, Outagamie County, transferred between portions of the City of Appleton in Winnebago or Calumet Counties (City of Appleton votes in 3 counties). Those ballots were counted once during the recount in the correct ward/correct county.
 -A draw down procedure conducted in the original Board of Canvass due to testimony that election inspectors had accidentally double fed absentee ballots. Those ballots were tabulated once during the recount.
