Dog Park**

After reviewing all of the conceptual drawings, the concept I like the most is:

1. Dog park #2
2. Brewster plan #2
3. Brewster plan #2

Reasons for selecting concept plan:

1. Location and access to trails. #3 I'm afraid would hurt wetland area.
2. Has 50 parking spaces, is away from major highways, no wetlands.
3. More parking, quieter, safer for dogs.

If changes could be suggested to the concept I selected, the first or most important change would be:

1. I like the idea of agility equipment access.
2. Second entry at far end of park, no training area, use porta potties.
3. Parking

Other suggested changes to consider, in order of importance are as follows:

3. 1) Second entry at far end of area. 2) No training area.
