**Please share this info with
tenants, neighbors, etc.**

Outagamie County and the City of Appleton will be making repairs to the concrete pavement on County KK / Calumet Street between Telulah Avenue and Kensington Drive, and on John Street between Matthias Street and Calumet Street. The project will also include construction of an eastbound right turn lane to the WIS 441 southbound on-ramp.

During construction, traffic on Calumet Street will be reduced to one lane in each direction, and John Street will be closed to through traffic. The project is scheduled to begin around the second week of June and will be completed in August outside of the school year.

A representative from the contractor, Vinton Construction, along with City and County officials will be on hand to discuss the project schedule and anticipated impacts the project will have on traffic along Calumet Street and access to properties along Calumet Street.

If for some reason you are unable to attend and would like more information regarding this project, you may contact our office at 832-5673. Please sign up for project email notifications via the link on the project webpage or at <http://eepurl.com/grAAcT>. Email notifications will be sent out in advance of all changes in traffic control during the project. Updated information will also be posted on the project webpage prior to the start of construction.

We have made every effort to contact all property owners affected by this project; however, we may have missed some. **Please share this information with your tenants and neighbors.**

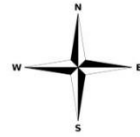

Sincerely,
Dean E. Steingraber
