

RESOLUTION NO.: 61—2019-20

TO THE HONORABLE, THE OUTAGAMIE COUNTY BOARD OF SUPERVISORS

LADIES AND GENTLEMEN:

MAJORITY

1 Vaccine-preventable diseases, such as measles, can be very contagious and can result in
2 serious health complications, including pneumonia and encephalitis, and lead to death.
3 Such diseases are preventable by vaccinations required by Wisconsin law for school and
4 day care attendance. Outbreaks of measles have impacted multiple states in 2019, with a
5 measles exposure occurring in Wisconsin in 2018. The effectiveness and safety of
6 vaccines have been well established. The Affordable Care Act has improved insurance
7 coverage for vaccinations, which are readily available in medical offices and pharmacies,
8 and public health departments continue to serve those eligible through the Vaccines for
9 Children Program. All states require certain vaccines for school entry in order to assure
10 that individual children do not contract diseases in the social setting of school, protect
11 other students from being at risk of disease and death from exposure to an individual
12 student, and to protect the broader community from these serious illnesses, including
13 individuals who are immunocompromised and those who cannot receive vaccines for bona
14 fide medical reasons.

15
16 Wisconsin's immunization law Wis. Stat. §252.04(3) and Wis. Admin. Code DHS
17 §144.06, makes Wisconsin one of only 16 states that permits parents to opt out or waive
18 some or all of the vaccinations required to attend school or group day care based on their
19 personal beliefs. Wisconsin's percentage of students with religious and medical waivers
20 have remained relatively constant over the past decade at less than 1%, however, the
21 percentage of students with a personal conviction waiver in Wisconsin increased from
22 1.2% during the 1997-98 school year to an alarming 4.6% during the 2018-19 school year.
23 Outbreaks of measles have impacted multiple states in 2019, and a number of other
24 serious vaccine-preventable disease outbreaks have occurred in Wisconsin over the past 2
25 decades. Several other states have recently removed personal belief exemptions from their
26 legal codes, such that 34 states now prohibit the use of personal belief exemptions for
27 school and day care immunizations. The Wisconsin Public Health Association (WPHA)
28 and the Wisconsin Association of Local Health Departments and Boards (WALHDAB)
29 both support a change in school and day care center immunization law that eliminates
30 personal conviction waivers for students in Wisconsin public and private schools and for
31 children who attend group day cares.

32
33 NOW THEREFORE, the undersigned members of the Health and Human Services Committee
34 recommend adoption of the following resolution.

1 BE IT RESOLVED, that the Outagamie County Board of Supervisors does support legislation
2 that will end the use of personal conviction waivers for school and day care center immunization
3 requirements, and

4 BE IT FINALLY RESOLVED, that the Outagamie County Clerk be directed to forward a copy
5 of this resolution to the Wisconsin Public Health Association (WPHA), Wisconsin Association of Local
6 Health Departments and Boards (WALHDAB), the Outagamie County Health and Human Services
7 Director, Wisconsin Counties Association, all Wisconsin Counties and the Outagamie County Lobbyist
8 for distribution to Governor Evers and the state legislators.

2019 SENATE BILL 262

June 6, 2019 - Introduced by Senators CARPENTER, L. TAYLOR, SMITH, HANSEN, MILLER, RISSER, RINGHAND and LARSON, cosponsored by Representatives HINTZ, VORPAGEL, KOLSTE, BROSTOFF, L. MYERS, RIEMER, GOYKE, ANDERSON, STUBBS, ZAMARRIPA, B. MEYERS, SUBECK, CROWLEY, STEFFEN, SINICKI, CONSIDINE, FIELDS, DOYLE, VRUWINK, SPREITZER, EMERSON, POPE, OHNSTAD, HESSELBEIN, BILLINGS, SKOWRONSKI and NEUBAUER. Referred to Committee on Health and Human Services.

- 1 **AN ACT to amend 49.155 (1m) (br) and 252.04 (3) of the statutes; relating to:**
- 2 **eliminating personal conviction exemption from immunizations.**

Analysis by the Legislative Reference Bureau

This bill eliminates the ability to waive the immunization requirement for schools, child care centers, and nursery schools for the reason of personal conviction. Under current law, a student admitted to elementary, middle, junior, or senior high school, a child care center, or a nursery school must, within 30 days of admission, present evidence of having completed the first immunization for each vaccine required for the student's grade and being on schedule for the remainder of the basic and booster immunization series for mumps, measles, rubella, diphtheria, whooping cough, poliomyelitis, tetanus, and any other diseases the Department of Health Services specifies by rule. This immunization requirement is waived, however, if the student or the student's parent, guardian, or legal custodian instead submits a written statement to the school, child care center, or nursery school objecting to the immunization for reasons of health, religion, or personal conviction. A school, child care center, or nursery school may exclude a student who does not meet the immunization requirement or does not present a waiver and is required to exclude a student who does not meet the immunization requirement or does not present a waiver if fewer than 99 percent of the students have complied with the immunization requirement or presented a waiver. A court may issue an order directing a student to comply with the immunization requirement or present a waiver by a certain date, and if the student is not in compliance, the court may require an adult student or the parent, guardian, or legal custodian of a minor student to pay a forfeiture. This bill eliminates the ability to waive the immunization requirement for schools, child care centers, and nursery schools for the reason of personal conviction. Under current law, a student admitted to elementary, middle, junior, or senior high school, a child care center, or a nursery school must, within 30 days of admission, present evidence of having completed the first immunization for each vaccine required for the student's grade and being on schedule for the remainder of the basic and booster immunization series for mumps, measles, rubella, diphtheria, whooping cough, poliomyelitis, tetanus, and any other diseases the Department of Health Services specifies by rule. This immunization requirement is waived, however, if the student or the student's parent, guardian, or legal custodian instead submits a written statement to the school, child care center, or nursery school objecting to the immunization for reasons of health, religion, or personal conviction. A school, child care center, or nursery school may exclude a student who does not meet the immunization requirement or does not present a waiver and is required to exclude a student who does not meet the immunization requirement or does not present a waiver if fewer than 99 percent of the students have complied with the immunization requirement or presented a waiver. A court may issue an order directing a student to comply with the immunization requirement or present a waiver by a certain date, and if the student is not in compliance, the court may require an adult student or the parent, guardian, or legal custodian of a minor student to pay a forfeiture.
