Frequently Asked Questions about Facial Covering Requirements

Outagamie County recently issued a press release which will initiate a policy of protective face coverings at its administrative facilities and county grounds. Since that time, Parks Staff have received several questions pertaining to this policy. The following has been prepared to help answers some of those questions:

Q: I have an upcoming shelter reservation, will I now have to cancel the reservation or will everyone be required to wear protective face coverings?
A: Protective face coverings are only required when entering a county facility and/or at access points. Since our shelters are “open air”, they are considered to be outside. However, social distancing is expected and protective face coverings should be worn when entering the kitchen area and/or restrooms.

Q: Are protective face coverings required for disc golf?
A: Protective face coverings are only expected when the social distancing requirement can’t be met or when using a restroom inside a county facility.

Q: Are protective face coverings required at the dog park?
A: Face coverings are only required at the point of entry/exit if social distancing is not possible.

Q: If my family would like to go for a walk in the park will we all need to wear protective face coverings?
A: Family units (residing in the same household) are not expected to wear protective face coverings or practice social distancing. However, they are required when entering a facility such as the restrooms. Individuals will not need a face covering unless social distancing is not possible.
